Grades 11 and 12 provide a high number of Advanced Placement® courses as options for the students. AP® courses are university-level courses with the possibility to sit an external examination at the end of the school year in May. With passing AP® Examination scores, students can meet equivalency with secondary-school diplomas in Europe, the UK as well as around the world. Language proficiency may also apply for such equivalency.

Students attend academic courses throughout the school year, Mondays through Fridays from 8:30 AM until 15:35 PM. Boarding students have a two-hour study hall each evening before academic days. Because around 85% of our students are boarders, we hold classes on holidays that fall during the week (see school year calendar).

AIS-Salzburg added the International Baccalaureate® Diploma Program to our curriculum from 1991 through 2002 and decided against this curricular program on the basis that the variety and flexibility of the Advanced Placement® Program was more attuned to international students' needs, with no disadvantages concerning diploma recognition.

The faculty members of AIS-Salzburg offer tutorials to the students on Mondays, Tuesdays and Thursdays throughout the school year from 3:45 until 17:00 PM. We feel that this tutorial assistance is critically important to the success of students enrolled in a college-preparatory program.
